Job Description: Finance/Accounting Associate

2020

Organization

Amazon Conservation’s mission is to unite science, innovation and community to protect the western Amazon—the greatest wild forest on Earth.

As conservation pioneers since 1999, we have used science to guide our multi-pronged approach to environmental conservation and restoration in the western Amazon. Our founding program provided support for Brazil nut harvesters in Peru, as an incentive for protecting the forest. Since then, the organization has grown to protect over 4 million acres of rainforest, establish Peru’s first conservation concession, host thousands of scientists and tourists at our three premier research stations, empower indigenous communities to develop forest-friendly livelihoods, and so much more. Our on-the-ground efforts are geographically focused in the headwaters of the Amazon basin, where the Amazon forest meets the Andes mountain range in southeastern Peru and northern Bolivia.
